

Concrete Hopper

Concrete Hopper - The self-dumping hopper attachment could automatically trigger to both unload and release as soon as the bumper release touches the side of a dumpster. After dumping is finished, the hopper can go back to original upright and locked position. This piece of equipment is likewise obtainable with a cable which enables operation from the seat of the lift truck to be able to have the alternative of manually unloading the hopper. There is a locking chain provided so as to lock the hopper to the tine truck. This particular product is made with consistent and reliable robotic welds for maximum strength. The lift truck dumping hopper even has a blue powder coat finish to maintain durability.
