Clark has a extraordinary Parts Distribution team. The parts warehouses are conveniently positioned in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their customers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Motivated to supply the highest level of value and service to our users, Clark remains on the leading edge when it comes to improving efficiency and benefiting performance.

Globally, Clark has one of the most amazing dealer support networks. With over 550 locations worldwide, supplier representation in over 80 countries and 230 locations in North America, their high level of commitment to their clients predominates the material handling industry.

Clark proudly remains an innovative leader of the industrial equipment industry, revolutionizing protection features such as the worker restraint system. This exceptional dedication to safety is currently a customary feature on every lift truck.

Clark's relentless effort to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck maker across the world to be certified with the internationally approved quality standard ISO 9001 for each and every one of their manufacturing facilities. Also, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any number of environmental limitations, thus placing them in a prevailing market position.

Clark has selected the extremely economical and advantageous system of "Lean Production" for its assembly facilities and application of resources. This system was developed to acknowledge the most efficient approaches of production facility management and ensuring maximum efficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

By working together, Clark's product suppliers and engineers communicate towards improving product effectiveness while minimizing costs. The new value engineering program combines innovative product improvement and provides improved customer support and service within the industry.
